RELEVANT EXPERIENCE

University of California, Santa Cruz AIEA Laboratory

Machine Learning Research Intern

Santa Cruz, CA

Jun 2026 – Present

- Conducting research under Dr. Leilani Gilpin on large language model (LLM) interpretability, reproducing published experiments, and analyzing neuron-level representations using PyTorch and Hugging Face
- Fine-tuning and evaluating transformer models on Natural Language Inference (NLI) benchmarks while leveraging GPU computing and reproducible machine learning workflows

Fulshear Historical Association

School Chapter President

Fulshear, TX

Apr 2025 – May 2026

- Founded the first student-led chapter of the local historical association
- Organized biweekly research projects and coordinated regional collaborations with neighboring chapters

Mathnasium

Math Instructor

Katy, TX

July 2025 – Feb 2026

- Taught 200+ students, ranging from grades K-12, in small group instruction across arithmetic, algebra, and geometry
- Instructed up to 6 students simultaneously while adapting explanations to different learning styles

Notre Dame Leadership Seminars

Business: What is it Good For? Seminar

South Bend, IN

July 2025

- 1 of 30 students (<6% acceptance rate) selected for all-expenses-paid business and economics seminar under Dr. Jim Otteson
- Produced a capstone project on the moral purpose of business, earning transferable college credit

Peaceful Unification Advisory Council

Independent Researcher

Houston, TX

Sept 2024 – Apr 2025

- Authored an original mixed-methods research paper examining generational differences in Korean-American perspectives on Korean reunification under the mentorship of the Peaceful Unification Advisory Council
- Designed & administered bilingual (Korean/English) survey to investigate research gap in Korean-American diaspora studies
- Performed statistical analyses (ANOVA, chi-square, Cohen's d) in SPSS to evaluate generational differences and interpret survey findings

AWARDS AND HONORS

- Future Business Leaders of America | 2nd Place in Economics (Texas State), 1st Place in Economics (Texas Area V)
- National History Bee | 1x International History Olympiad Qualifier, 3x National History Bee Qualifier
- Academic Decathlon | 3rd Place in Art (Texas Frisco State), 3rd Place in Essay (Texas Region VII)
- Quiz Bowl | Top 12% Individual Placement (High School National Championship Tournament 2022), 2nd Place (2021 State)

TECHNICAL SKILLS

Languages: Python, Java, HTML, CSS, JavaScript

Tools: Git, GitHub, Linux

Frameworks: React, FastAPI

Certifications: AWS Certified Cloud Practitioner, Certiport IT Specialist - Java
